

Management & Technology Consulting

Committed to helping companies create knowledge and deliver innovation.

Digital Business is the Caribbean's leading E-Business, Business Intelligence and Management Consulting services company committed to helping companies create knowledge and deliver innovation.

Company Overview

Digital Business is a leading management consulting and technology services company, committed to helping organisations innovate, share knowledge and improve performance.

Our team of experienced consultants offers breakthrough management consulting and technology services solutions that allows governments, leading organisations and small and medium-sized enterprises to create, share and apply knowledge that helps them to deliver innovation and transform their business.

Our core business is facilitating organisations in getting the right information to the right people at the right time to inform better decision making. We are committed to establishing and sustaining operational excellence and striving for continuous improvement in all our dealings with our clients.

Our Vision: **Our vision** is to be the leading management consulting and technology services company in the Caribbean with expansion globally.

Our Mission: **Our mission** is to provide superior, value added management consulting and technology services solutions using the latest technology and best of class consultants in an environment of fairness, honesty, and courtesy towards our clients, employees, vendors and society at large.

Our Core Values are E-LIFE; Excellence in Everything, Leadership by Example, Integrity and Transparency, Focus on the Client and Employee Centered.

Services

E-Business

With our custom Application Development solutions, Portal Frameworks and content management infrastructure for Websites, Intranets and Extranets, we help organisations centrally access information within disparate systems and data sources to provide different types of users self-service access to the information they need. We provide guidance and offer a comprehensive range of portal solutions including both Microsoft SharePoint and Open Source solutions that will enable you to bring together people and processes to help you meet your business objectives.

Business Intelligence

Our innovative Business Intelligence (BI) services focus on helping clients collect and analyze external and internal data to generate value for their organisations. Learn about our wide range of solutions and services for harnessing structured data, including the business intelligence diagnostic, data warehousing services, BI sourcing and event monitoring. From Balanced Scorecards and Strategy Maps to Digital Dashboards and Reporting, our solutions can be customized to meet your specific company needs.

Management Consulting

We offer a full range Information and Communication Technology (ICT) consulting services to Government and organisations wishing to reap the full rewards of technology. Our services include developing national regional strategies aimed at encouraging the use of ICTs among SMEs, the identification of opportunities to foster technology transfer to SMEs, and the promotion of entry of SMEs into the local market/sector for product and service delivery globally.

Products

Digital Tenders

Digital Tenders is an intuitive, web-based application that provides the essential functionality that organisations need to manage tendering, procurement and contracting effectively to reduce cost, increase efficiency, improve transparency and reduce risk.

Digital Candidate Manager

Digital Candidate Manager provides the essential functionality that organisations need to automate the recruitment and selection process. Digital Candidate Manager enables everyone to more effectively acquire, assess, and align candidates to the organisation.

Digital Business Intelligence

Our innovative BI services focus on helping clients collect and analyze external and internal data to generate value for their organisations. From Balanced Scorecards to Digital Dashboards and Reporting, our solutions can be customized to meet your specific company needs.

Web Application and Intranet Application Development

Digital Portals is an open source web application framework ideal for creating, deploying and managing interactive web sites, intranet, and extranet sites securely. Digital Portals can also be used as the ideal framework for deploying digital dashboards and custom applications.

Mobile App Development

Looking to develop mobile applications on the IOS, Android, blackberry or Windows Phone platform? Digital Business can take your mobile idea to the next level. Our Mobile solutions let you work with desktop, web and mobile seamlessly and efficiently.
